

Healing Thru Horses

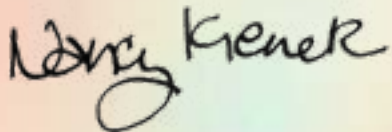

Annual Report 2017-2018

HONOR INTEGRITY COMPASSION EXCELLENCE SAFETY

Friends,

This year has been a year of celebration. Celebrating our 20th year of partnering with the magnificent horse that so carefully carries our riders and is the conduit to their healing. Celebrating the hundreds of faithful volunteers that spend their days walking miles in our red dirt. Celebrating our courageous riders and their families who place their trust in ROCK staff, volunteers, and horses. Celebrating our 28 amazing staff members who are leaders in the community and in this industry. Celebrating our steadfast board members who guide ROCK and continue the push toward excellence. Celebrating (WHOO!) our 7th year of managing TAMU Courtney Cares program (www.CourtneyCares.org) in College Station and our 2nd year of teaching a college course on Equine-Assisted Activities at Texas A&M. Celebrating our 13th year of serving veterans and their families. And celebrating our generous donors who allow us to have the resources to facilitate this 'Healing Thru Horses' that happens for the 350 children, adults, and veterans that passed under our gates this year. We are grateful for the opportunities that we have every day to make a difference in the lives of so many.

Let the Celebration Continue,

Nancy Krenek,
ROCK CEO & Founder

VETERANS

ROCK has provided equine-assisted activities and therapy to our nation's veterans through the ROCK On Veterans program since 2005. This program offers veterans and active duty service members the opportunity to partner with a horse and veteran volunteers, strengthening independence and functioning through physical, emotional, and spiritual progress. The physical benefits of caring for and riding a horse manifests in multiple ways, retraining the body for improved balance and coordination. Emotionally and spiritually, learning to lead the horse teaches individuals to lead themselves, helping return the reins of life back to the rider. Guided by principles of good horsemanship and leadership, veterans are able to reclaim their status as CEO of their lives.

COURTNEY CARES

★ SAFETY ★ EDUCATION ★ SERVICE ★ RESEARCH ★

In 2011, ROCK was contacted by the Texas A&M System as directed by the Board of Regents, to assist TAMUS to start an equine-assisted activities and therapy center.

The decision to start an EAAT center resulted from a donation to TAMUS in memory of Courtney Grimshaw Fowler (Class of 85). Courtney was an avid equestrian and businesswoman on the international level. When she died in 2010, her family wanted to establish a living, breathing legacy at her beloved Texas A&M. Thus, the program “Courtney Cares” was established.

The Texas A&M University College of Veterinary Medicine Courtney Grimshaw Fowler Equine Therapeutic Program, “Courtney Cares,” began serving children, adults and veterans in 2012, and is staffed and managed by ROCK. The horses are leased from the Texas A&M Corps of Cadets Parsons Mounted Cavalry, led by Bob Byrns, a PATH Intl. Instructor. At any given time, Courtney Cares partners with 12 to 20 horses out of the 69 horses and mules in the Cavalry unit.

In 2016, Courtney Cares became a Premier Accredited PATH Intl. program. The core values of Courtney Cares are safety, education, service, and research. This program cultivates future leaders and supporters of Equine-Assisted Activities and Therapies through education and service learning opportunities, and encourages research in this industry.

In Spring 2018, Dr. Priscilla Lightsey and Dr. Nancy Krennek began teaching an Intro to EAAT course at Texas A&M in College Station. The lab for this class is conducted in the arena at Courtney Cares.

ROCK is a Premier Accredited Center of the Professional Association of Therapeutic Horsemanship International since 2000. This requires high safety standards and passing the accreditation process through following policies and procedures promoting excellence and safety. TAMUS Courtney Cares has been a Premier Accredited Center since 2016.

COMMITMENT TO EXCELLENCE

ROCK has been on a journey since 2007 of evaluating and improving ROCK towards efficiency. The tool used most often has been the Malcolm Baldrige method, resulting in Texas Quality awards to ROCK for two consecutive years. This evaluation is carried over into how we set up guidelines and policies and procedures at Texas A&M as well.

The Williamson County Institute for Excellence has invested in and guided ROCK for 11 years.

HERE WE GROW!

ROCK began 20 years ago with one horse and four participants on donated land. The dream to transform lives in partnership with the horse soon became a reality. We have outgrown our current facilities and are so excited to be planning for the future growth of ROCK to continue transforming even more lives. We hope you will partner with us to help move ROCK forward into the next 20 years. Watch for more information coming soon!

THANK YOU

*Our mission of improving independence and life skills in partnership with the horse would not be possible without the support of each and every donation to ROCK.
